H-1B Scaling Apprenticeship Performance Data Review

April 21, 2021

Moderator: [Cheryl Martin](#)

Speaker(s): [Zodie Makonnen](#), Dani Abdullah

As the Scaling Apprenticeship (SA) grantees approach the mid-point of their grants, this webinar took an in-depth look at performance outcomes against targets to date for the grant program as a whole and individually by grant program for selected grantee targets. Grantees received information to help them track and report accurate participant level data, specifically the data that populates the “real-time” employment and training outcome measures for their grant.

The session provided:

An opportunity for grantees to understand how DOL uses their participant data to compare their SOW targets with their QPRs

Tools to help grantees assess the accuracy of the data they are reporting and whether it reflects the reality of your their program’s progress to date

An Overview of Grantee Performance To-Date

A review of definitions of the Nine Reporting Outcomes

A review of Common Myths and Errors Affecting Data Accuracy

Tips and Strategies for Accurate Data Collection, Management and Reporting
